Year 3 Depends on the country

* Flight and stay, excluding meals, other transport and personal additional costs.

FINANCING TEAM ACADEMY

The Bachelor Business Administration in Entrepreneurship is a private HBO/Higher Education offered by the institute Stichting Schoolvision in close collaboration with Team Academy. Because it is a private education, tuition fees are higher than in other, government subsidized programmes. However, this additional tuition goes directly to providing our unique, hands-on learning approach, higher quality support from professional field experts, team coaches, business mentors and an unique internal learning experience for students.

The institute Schoolvision, in close collaboration with Team Academy, is a recognized, fully accredited educational institution. Because of this, as a Dutch student, you can request financial support for your study via DUO. At DUO you can receive a student loan with extremely beneficial terms: you don't pay any interest in 2020, you have a long repayment period (35 years), and after completing your study you never have to pay back more than 4% of your additional total income above minimum wage.

All information in this document is carefully compiled on the basis of the most recently available information from DUO, for the most up-to-date information we always direct students to the DUO website: www.duo.nl.

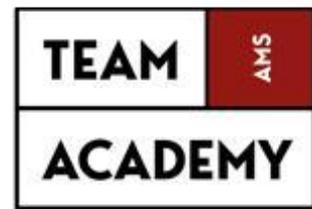

Please note that the information in this document is in no way legally binding, is provided as a guide, and should in no way be construed as a guarantee of financial support from Team Academy.

STUDY FINANCING

Team Academy (Schoolvision Foundation) is a recognized and accredited education institution, and because of this you can request financial support for your study. The available HBO study financing consists of: a loan, the tuition credit, the student travel product, and potentially an additional scholarship.

SUPPLEMENTARY GRANT

If your parents can pay little, or none of your tuition fees, you may also qualify for an additional scholarship from DUO. This depends on the combined yearly income of your parents. The number of children they support and amount of student debt they-themselves have is also considered. Calculate how much you qualify for, depending on your situation, with the calculation feature on duo.nl. Please note, this additional financial support is provided in the form of a loan, however, once/if you graduate (within 10 years) the loan converts to a grant and does not have to be paid back.

LOAN & TUITION CREDIT LOAN

As a student at a private educational institution you are allowed to borrow up to €1101,84 per month. This amount includes the supplementary grant mentioned (should you qualify). If you don't receive an additional scholarship, then you can loan the remaining amount. The interest rate on the loan differs per calendar year, in 2021, the interest is also set for 0%. After completion for your study the interest rate will remain fixed for 5 years.

TUITION CREDIT

As a post-secondary student you have the right to receive study financing for your study and can request tuition credit at DUO. Tuition credit is a loan meant for the payment of tuition fees up to €10.715,- per year (5 times the statutory tuition fee). This is paid per month with your other financial support. Interest begins to accrue the month you receive your loan. After completion of your study the interest rate will remain fixed for 5 years.

STUDENTEN TRAVEL PRODUCT

The Student Travel Product is part of Study Financing. It allows you to travel free, or with a discount using public transport and amounts to an in-kind grant.
