

Are you a Team Academy student?

START

You might not consider yourself to be an entrepreneur yet, or thought of yourself with your own company, but there can be an entrepreneur in all of us.

Next to this, at Team Academy we not only teach entrepreneurship, but we build characters! An important part of our education is personal development, growing as an individual, gaining experience with teamwork and self-reflection, being more independent. Features that are useful for everyone to be familiar with.

You might not know that you like learning by doing, learning in teams, and learning from real businesses. We offer you the opportunity to explore this.

At our Open Doors, you can have a first introduction to our teaching method, school, and students, and see if this is what could benefit you in your life now.

Your answers show that there are promising entrepreneurial features in your character. You might not have the experience yet, but it seems you are eager to learn and grow. We believe entrepreneurship is a skill that can be taught and developed, and an entrepreneurial mindset is key to deal with the uncertain times ahead!

Next to this, your results show that you could also benefit a lot from and enjoy Team Academy's way of teaching: learning by doing, learning in teams, and learning from real businesses.

Discover if Team Academy is what fits your ideas and personality at our Open Doors. This event will introduce you to potential fellow team members, our teaching method, and you can ask all your questions.

You have what it takes to be an entrepreneur! You probably considered yourself to be an entrepreneur, or thought of yourself with your own company at some moment in time, but your answers show that you already own an entrepreneurial skill set that is ready to be developed more.

At Team Academy, we can help you develop a business idea and transform it into an actual business. During the workshops, you'll learn all there is to know about entrepreneurship in an interactive way, applying it directly to your business or project. And you'll have a team of business mentors, coaches, and team members around to help you, who all have entrepreneurial experience.

At our Open Doors you can meet like-minded students, chat with our business mentor about your ideas, and talk to our application staff to discover how you can sign up being a student for a day at Team Academy. During those days, you will get confirmation if we fit your needs and if you fit what we are looking for!

This will not be a surprise for you, you are the definition of an entrepreneur! You possess so many important qualities of an entrepreneur, or maybe already started a company (or several?!).

You already know a lot, but there's more! What could help you with your entrepreneurial wishes is a place and a team that can help your business ideas or business(es) grow into what you have in mind, or even beyond your ideas. You can still learn more about entrepreneurship, all the facets of having a business, and you can still grow as an entrepreneur and build your character.

Having business mentor sessions, teamwork sessions, workshops, masterclasses, customer visits, investment days: What if you could have all these while going to school?

Your results show that you are exactly the type of student we have at Team Academy. A proactive, hands-on type of personality, who is not afraid to take a risk or to make mistakes. Someone who is ready to gain experience in business and in life itself.

If you have not already applied for Team Academy or signed up for our Open Doors, we would definitely recommend you to do so! We would be thrilled to have you in one of our future teams!

We would really like to meet you online or at our location in Amsterdam during our Open Doors, where you can chat with other (entrepreneurial) students, our business mentor, and our application staff to find out if Team Academy is what you are looking for in a school and if you fit our future teams.
